Actual

size

What sets AirMini apart?

In addition to being the smallest CPAP on the market¹, there are a number of reasons AirMini isn't just another travel CPAP.

ActiveAir™

This crucial technology caps therapy flow while still increasing therapy pressure, which allows the system to be smaller, quieter and more efficient without compromising on therapy delivery or pressure swings.

HumidX™

Our waterless humidification system allows exhaled air to pass through the HumidX before reaching the mask vent. The HumidX acts as a source of moisture throughout therapy, providing a comfortable portable therapy experience.²

AirMini app

Patients can download the AirMini app on their smart device to control a range of comfort settings. Users receive their score each morning and can access the previous 30 days of sleep data, helping them stay engaged with therapy.

The portable CPAP you

Finally, a portable CPAP you can trust! AirMini is the quality of therapy patients trust in our market. Leveraging the same proven algorithms and a rapid and effective therapy, AirMini sets a new bar for portable CPAP. 80% of users preferred AirMini over the two main competitors.

portable CPAP performance. In fact, more than
rket-leading travel CPAPs in a recent study.³

Optimized masks for AirMini

AirMini has been designed to work with our all-new AirFit™ 20 series and the AirFit P10 for AirMini masks. Patients can choose from full face, nasal and nasal pillows options – each designed to deliver comfortable and stable therapy.

Compatible masks include:

AirFit™ F20

AirFit™ N20

AirFit™ P10
for AirMini

A complete system

AirMini is more than just a portable CPAP, it's a turn-key solution for therapy on the go. The AirMini device and setup pack, optimized AirFit™ masks and AirMini app give patients what they need to bring high-quality therapy along no matter where life takes them. Optional accessories like the AirMini travel bag make it even easier for patients to pick up and go.

1 As of March 20, 2017 **2** Currently not available when using full face masks **3** Results of independent, 3-night US study of 32 patients using ResMed AirMini, HDM Z1 Auto®, and Transcend Auto™ Mini CPAP Jan-Feb 2017.
